Re: Letter of Recommendation

I am writing this letter to recommend AAA Building Maintenance. My experience with AAA Building Maintenance has been over the span of two projects. During these projects, they have been exceptional in their responsibilities. All phases of the cleaning process were very thorough, complete, and most important of all, on schedule. This is one of the few subcontractors that need very little management as far as the General Contractor is concerned. Their on site and off site management is always there to assist in any way they can, even if when it comes down to the last minute.

In closing, AAA Building Maintenance is a very quality cleaning company that is great to work with.

Sincerely,

Trent Lockett
Project Engineer
